Hi, please review the assets you are applying to attach to. One is not owned by us.

system ALDEN SYSTEMS, INC. Modified: 3/13/19, 1:49 PM Created: 3/13/19, 1:49 PM Delete Reply Edit
StateMachine converted from 'TEST-Connecticut Permit to Attach'

2
Attacher's Responsibility

page walkthrough

- ① The only reason a Permit to Attach conversation would be in this status is if an owner needed additional information from the Attacher. Look in the Notes section to see what additional information is needed.
- ② Make the appropriate changes.
- ③ Click the "I want to..." button and select "Change the Status and/or assignment" here to move the conversation forward.

page walkthrough

- 1 Click "Resend Request."
- 2 Add a note, if you wish. This step is not required but can be helpful if you need to add additional information for the pole owner.
- 3 Click "Save" here to move the conversation forward. This will send the conversation back into the "Sent" status. The owner will review the application.
