## page walkthrough

- ① To require Make-Ready work on an attachment or attachments, first go to the Assets tab.
- ② You can expand each pole here by clicking the plus button and find the attachments this way.
- ③ You can also choose "Hide Poles" here to only show the attachments on the poles.
- ④ Once you have your attachment or attachments selected, use the "Form Edit Assets" button if you would like all of the assets to require the same Make-Ready work.
- ⑤ If your attachments each require different Make-Ready work, select "Line Edit Assets."

**(Note: you can ONLY require Make-Ready work on pole attachments that are already on the poles, NOT on Proposed Attachments.)**
