

# aldenONE Homepage – Selecting Poles

The screenshot displays the aldenONE interface. On the left, there is a sidebar with search filters for 'Assigned To Me', 'Assets Searched', and 'Pole Filters'. The main area shows a map with numerous poles represented by colored dots. A 'Take Action' menu is open over a selected pole. Numbered callouts (1-7) highlight specific UI elements: 1. Search bar, 2. Selected pole, 3. Shape tool, 4. 'Take Action' menu, 5. 'Color by?' filter, 6. Colored dot, 7. 'Color by?' radio button.

## page walkthrough

- 1 Once the map is zoomed in (or when enough filters are applied) to return less than 1,000 results, the assets on the screen will display as dots instead of colored grid clusters.
- 2 To select an asset, click it on the screen. Selected assets are colored yellow.
- 3 You can also draw a shape to select multiple assets at once, using the shape tools.
- 4 Once at least one asset is selected, the "Take Action" menu will appear. You can create a conversation with your selected assets, clear your entire selection, or in the cases of some assets, perform other actions, from this menu.
- 5 To view more information about your selected assets, expand this tray here by clicking "View All."
- 6 Click on the colored dot in the filter menu to change the color of the dots by this Owning Company.
- 7 Click on the "Color by?" radio button to color the dots by that filter type.

The screenshot shows the aldenONE interface with a map of poles. A 'Take Action' menu is open, showing 'Create Conversation With Selected Assets' and 'Clear Selection'. A dialog box titled 'Create A New Conversation' is displayed in the center, with the following fields:

- Conversation Type: Select Conversation Type
- Conversation Title: [Empty field]
- Description: [Empty text area]
- State: CO (with a checkmark)

At the bottom of the dialog are 'Cancel' and 'Create' buttons. Below the dialog, a list of poles is shown with their details:
