

ALDEN SYSTEMS

RELEASE NOTES

20.6

Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

OCTOBER 2020

NEW FEATURES

*** See following slides for a walkthrough of this new feature**

NEW FEATURES THIS RELEASE

1. **Enhancements to the Alden Registration Page***
2. **Add “Captcha” (I am not a robot) functionality to the “Registration Form” and “Forgot Password”***
3. Added the ability to configure messages that are tied to user events and have a configurable confirmation pop up
4. Groundwork laid for a Calendar Visualizer, to be released in the future
5. When exporting a conversation, we will now show the “Type Description” rather than “Type Code”
6. Modified Task Agent Data Provider to better handle bad characters

BUG FIXES

BUGS FIXED THIS RELEASE

- ✓ The action menu did not open on the map when using the selection tools
- ✓ Query Lookup - Target field that had been manually cleared after save (with a previous value) did not populate on another lookup
- ✓ Could move a conversation forward without required fields populated if not on the Header tab
- ✓ Conversation Form Editor - Changing rate or quantity fields did not calculate the total field
- ✓ Query Lookup - Searching using filter values in multi-lookup dialog did not return expected rows
- ✓ Contract Line Item - Was unable to open multi-lookup dialog on Rate Type
- ✓ Ampersand symbol was not escaped when pushed from Task Agent into Alden One

RELEASE SHOWCASE – REGISTRATION ENHANCEMENTS

Updated the registration page in Alden One to make things easier for users and added functionality for Captcha

REGISTRATION FUNCTIONALITY

ALDEN ONE is now integrated with **Captcha**, a security tool making sure new users are not bots. In addition, the registration page was updated with some more contextual labels as well as a slight re-ordering of fields for easier use.
