alden ONE

RELEASE NOTES

21.1

Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

MARCH 2021

NEW FEATURES

- Online Payment - Implement Stripe as a payment processor
- In certain instances when they are a lot of facets, color by results in Undefined Hex
- Contract - Update search facet index to display the related Attachment Categories from the linked ABI records
- Update map boundary layers on map move
- Add company specific banner page to Alden One
- Default to a (United States) state when creating a conversation when no assets are selected
- (Conversation Assets) - User can't tell if the Line Editor spans pages
- Increase MaterialType length to 50 on the poleuniv record
- As a user, I want to know what type of asset I'm adding to a conversation when the dialog is open
- Conversation Assets - Allow mappable assets to be displayed with shapes and colors based upon attributes.
- As a user, I want to be able to close all open tabs in Alden One
- Display selected TASKS/unconfigured asset in the card tray and create a fallback default to show unconfigured assets in card tray

BUG FIXES

BUG FIXED THIS RELEASE

- ✓ On a conversation, the Header has locks on all fields on the header for read-only user EXCEPT the description

- ✓ On a conversation, the contact suggestion drop-down re-displays when user reopens assign dialog from search

- ✓ In the "sort by" menu for photos, "newest" appears twice

- ✓ On a contract, the loading circles for History section are missing

- ✓ In Role Management, the role share/userrole dialog can be dismissed by clicking outside the dialog

- ✓ On a contract, a user is unable to make changes to contracts because the Rate Increase of % or $ is required even when no Fee is provided

- ✓ "Request Data Access" conversation type opens to a blank screen instead of the header

- ✓ Account Billing Info - Changed column order isn't saved correctly when returning to the tab

- ✓ Account Billing Info - Clearing filter from 2nd filtered column does not actually clear the filter

- ✓ Poles will not display on map if pole is not the first entity listed on the conversation

- ✓ Alden One (conversation) - Show/Hide Columns icons are different for pole attachments

COMING SOON

PLANNED FOR UPCOMING RELEASE(S)

- Ameren - Auto-Generate ANNUAL BILLING Invoice based on Contract/Account (manual trigger)
