

RELEASE NOTES

21.2

Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

April 2021

NEW FEATURES

NEW FEATURES THIS RELEASE

- Add column reordering, filtering and sorting to reference data grid
- Add multi factor authentication to Alden One
- Add Is In List (by a comma-separated list) to the search control
- Ref Data (Assets) - Provide ability to deactivate (soft delete) a reference data item (lookup)
- Implement profile interfaces for AldenOne users to persist any user settings
- Move the Success/Error Message pop up in Alden One

BUG FIXES

BUG FIXED THIS RELEASE

- ✓ Alden One (Combine documents) - Need text wrap for large document names
- ✓ Display selected tasks/unconfigured asset in the card tray sometimes gives a console error
- ✓ Reference Data - Adding new Account doesn't immediately show the new account in the list
- ✓ Alden One (utility pole) -- Add a space to ConversationHistory section title
