RELEASE NOTES

22.4

Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

May 2022

NEW FEATURES

- Update the Facet Panel styling to make it more readable.
- Changed the "assigned to" on the Header to show the person's name instead of their email address.
- Re-wrote password instructions to be more clear/less confusing.
- Give users a way on the conversation map to see which poles are on the conversation, which are not on the conversation, and which are undocumented assets.
- Change how "Get help on my current status" works.
- Add the ability to manage (add/edit/delete) attachments/occupants on vaults.
- Allow minimum length on attributes.
- Add Single Sign On to Alden One (SSO)
- Updated "Export to Excel" to not export hidden fields on Conversation, Pole, or Contract search.
- Add link to Feature Tour for Pro users.
