

RELEASE NOTES

22.5

Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

June 2022

NEW FEATURES

NEW FEATURES THIS RELEASE

- Add Single Sign On to Alden One (SSO).
- Add a customer-defined list of Note Categories that a user can select when adding a note.
- Add a Clear All Filters option to clear facet, keyword, and Bounding Rectangle.
- Move status in Alden One email Subject after the Conversation number.
- ComEd - Update Contract Info report to properly deal with deleted contracts/line items, and get Contacts from ContactsList reference list.
- Decommission CollectWeb functionality and add it to Alden One.

BUG FIXES

BUG FIXED THIS RELEASE

- ✓ Task assignment does not un-select the tasks after they have been assigned, but they don't show as selected on the map.
- ✓ Deleted Account Configurations appear in list to select from in the Rate Types.
