- Change “Forgot Password” to use SendGrid for outbound emails.
- Add the ability to delete grid tasks in Alden One.
- Change verbiage on company registration acknowledgement checkbox.
- Add the ability to configure the display order of the available Actions per status.

# BUG FIXES

## BUGS FIXED THIS RELEASE

- ✓ Pole Asset History date fields are not in the standard date format.
- ✓ Entity Attribute that is required due to XML Validation is not displaying green checkbox when valid value is entered.
- ✓ Reply button on conversation and asset Notes "disappears" when mouse is over it.
- ✓ When deleting a value in a pole attachment record, user receives an error that the field is required even though it is not required.
- ✓ Console error when searching for company name in Admin Role Share page causes company to not appear in list.
- ✓ When in a conversation on the Notes tab, the SAVE button does not activate on some "Reply" selections on an individual note.
- ✓ When saving header fields on Billing Request conversation, some fields get blanked out.
- ✓ Query/Reference Lookup - added IsInList as available operator.
- ✓ User can edit a filtered lookup field when it is edit protected on a conversation.
- ✓ Checked box appears unchecked after save, but is actually checked after refresh.
- ✓ "Color By" search option disappears when trying to set the color.
- ✓ "Expand top 10" button disappears after selecting HIDE POLES and SHOW POLES.
- ✓ Dialog has title "Remove Contact?" when adding a duplicate contact.
