

RELEASE NOTES

22.9

Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

January 2023

NEW FEATURES

NEW FEATURES THIS RELEASE

- Add a print button to the conversation print page.

BUG FIXES

- ✓ Pinning the Collect Web menu option or the reference data tab, then unpinning does not dismiss the pinned tab.
- ✓ Reference Data - Account Configuration - Details - Columns show a sort arrow, but data isn't really being sorted.
- ✓ Subject line of email notifications on status change/assignment do not indicate "oh behalf of" correctly.
- ✓ Photo thumbnail on Edit Photo dialog is not showing the thumbnail image.
- ✓ Pole Notes default Category does not display when Note has been saved.
- ✓ The Add to Calendar feature does not carry over the date selected on the Apple Calendar.
- ✓ Create Rate Type - StartDate and ExpireDate need to be swapped in order.
- ✓ Reference Page/Notes Categories and doing a search, the results do not appear to be accurate.
- ✓ Order attribute shows on the Line Editor for a child asset on a conversation, but not in the grid.
- ✓ Conversation attribute name wraps instead of truncating on some conversations.
- ✓ No spinning wheel when updating utility pole.
- ✓ In Account Billing Info, user can type in more than allowed number of characters in several fields, and gets error that does not tell them what is wrong.
- ✓ Reference Data - column settings are not saved.
- ✓ Add to External Calendar remains active after I've cleared the date from the field (before saving).
- ✓ Add to External Calendar is not visible when field is read-only (edit protected).
- ✓ Cannot delete/Remove contacts from conversations that have a space at the beginning and end of email address.
- ✓ Ref Data Rate Types - List is blank when returning to tab if column filter is on for Account Configuration (or any lookup column).
- ✓ Conversation Asset tab does not refresh after removing poles from the conversation if the poles have been sorted via the UI.

BUGS FIXED THIS RELEASE

- ✓ User unable to clear date field once they enter a value.
- ✓ Show Active button on Account Config Details is not displayed if no deleted items.
- ✓ Unable to save changes to Poles and Attachments in UAT (timeout occurs).

BUG FIXES (CONT.)
