Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

June 2023

NEW FEATURES THIS RELEASE

NEW FEATURES

- Puerto Rico and other US territories added to the State list for some standard attributes in Alden One.
- Roles were sometimes not displayed when editing a User in the Admin Page, and Role Management would display a "buffer quota" error.
- Add Streetlights as a new asset type to be managed.
- List of values in one drop-list field (context lookup) on the conversation asset tab can now be limited based on the value in another field.
- Add ability to search Conversations with specific Note Categories.

BUG FIXES

BUGS FIXED THIS RELEASE

- ✓ List of asset types in the Company Profile section of the Admin Page was duplicated after reloading the tab.
- ✓ Username/Company in Conversation Detailed History was not displaying if the username contained capital letters.
