

RELEASE NOTES

25.9

Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

Sept 2025

NEW FEATURES

NEW FEATURES THIS RELEASE

- **Implemented the ability to have custom labels for specific attributes.** As an example, if a company wants to display “Wire Center” in place of “Location”, it can be configured to do so. This applies to both conversations and assets.
- **Implemented logging** - so that company admins can track what all changes that were made by admins.
- **Visual enhancements** - made to the online payment screen to include commas and currency symbols.
- **Implemented date formatting** - for non-US customers.

BUG FIXES

BUGS FIXED THIS RELEASE

- ✓ **Take Action Dialog** - Corrected an issue in which users could not open the **Take Action** dialog from any section other than the conversation header.
- ✓ **Share Roles with Other Companies** - Corrected an issue in which some users were encountering issues while trying to share roles to other companies.
