# RELEASE NOTES

26.3

Documenting **ENHANCEMENTS & BUG FIXES** for Alden One this Release

April 2026

## NEW FEATURES THIS RELEASE

# NEW FEATURES

- **Center Assets in Split View** - We added the ability to center assets in the split-view based on grid selection. When the “center map on selection” toggle is activated, any grid selection will navigate the map view to that selected asset’s location if there is a latitude and longitude defined.
