NEW ENHANCEMENTS

NEW ENHANCEMENTS THIS RELEASE

- **ePay** - Enhanced ePay to include the option of daily disbursement scheduling. The ePay UI is now more user-friendly and the process to connect an ACH account is streamlined.
- **GeoSort** – The GeoSort algorithm has been improved and allows for coloring by branch for better visibility.
- **Vault Labels** - Label options in conversation map and split-view include “Number” for vaults.
- **Email Notifications** - Updated email notifications to show users’ first and last names instead of username when notifications are sent from a conversation.
- **Optimization/Speed Improvements** - Various optimization and speed improvements throughout the application.

BUG FIXES

BUGS FIXED THIS RELEASE

- ✓ **Search Errors** - Some search-related errors were not properly displayed and were being suppressed. Users are now presented with an appropriate error so they can take action based on its information.
