

Release Notes 18.2.4

Walkthrough of Improvements for this release of Alden One.

Enhancements and Updates Completed This Release

User Storyz		
Conversation Assets	See a distinct list of values from my results in the selected column so I can pick one to apply a filter	Enhancement
Reports	PURA 3PA - Change the default start date and end date on the License History report, License History Detail report and the License History Poles report	Enhancement
Search Results	Add column separators to be able to better distinguish where the columns begin and end on a grid	Enhancement
Conversation Assets	Implement performance enhancement(s) to the Asset Line Editor	Update
Conversation Assets	Provide better handling of errors when requesting assets on a conversation	Update
Conversation Assets	Applied filters in one column will now limit the filter values in another column	Update
Conversation Assets	Make column filter values alphabetical	Update
Search Results	No indication that results are loading after clicking "Search This Area" on mobile	Update

Bugs Fixed This Release

User Story	Description	Type
Administration	Selecting new user role doesn't save that change when navigating away from user management tab	Bug
Conversation Actions	On occasion, the wrong actions are showing up in the list of available actions for a specific conversation	Bug
Conversation Assets	Values in column filter list include multiple blank values	Bug
Conversation Assets	Selecting blank values in column filter does not enable Filter button	Bug
Conversation Assets	Selecting blank values in column filter does not actually show rows with blank values	Bug
Conversation Creation	Creating conversation from pole search results creates the conversation without assets (error)	Bug
Conversation Documents	Unable to add documents or photos to a conversation in IE	Bug
Conversation Related	Update count on Related Conversation tab when a conversation opens	Bug
Conversation Reminder	Conversation reminder dialog on mobile has layout issues	Bug
Reports	PURA 3PA - LicensesReleased and LicenseReleased columns are blank on the License History report	Bug
Search Results	"Color By" color selection flyout does not get dismissed appropriately	Bug
Search Results	Unable to open exported search in Excel	Bug
