

aldenONE Settings – Change Password

The screenshot shows the aldenONE user interface. At the top right, there is a user profile for 'Joel Busby' with a 'settings' link. A callout '1' points to this settings link. Below the navigation bar, there is a 'user settings' tab with an 'X' icon. A callout '5' points to this 'X'. The main content area is titled 'Account Basics' and contains a 'password' section with a 'change your password' link. A callout '2' points to this link. Below this is the 'Notification Preferences' section. A modal window is open in the foreground, titled 'old password', 'new password', and 'confirm new password'. It has three input fields. A callout '3' points to the 'old password' field. At the bottom of the modal is an 'update password' button with a callout '4' and a '<< back to user settings' link.

page walkthrough

- ① Click Settings at the top right of the application to access the User Settings.
- ② Click Change Your Password to access the dialog to change your password.
- ③ Enter your old (current) password. Enter your new password and then enter it again to confirm your new password. Click Update Password to save your new password.
- ④ To return to the User Settings, click the link Back To User Settings.
- ⑤ To exit the User Settings, click the X on the tab.
