page walkthrough

- ① After clicking the Register button in the login screen, the User Registration page is displayed. Enter the required fields indicated by red borders.
- ② After selecting the appropriate state from the drop list, if your company is not listed, click the Company Not Listed? link. See the help topic Registration – New Company for more information.
- ③ Set your notification preferences to receive the desired emails when conversations are assigned or the status changes.
- ④ Click the Register button to complete the user registration. You will receive an email that contains instructions to verify that you are the owner of the email address that you used to register. If your email domain (@domain.com) does not match the domain for the company to which you register, then your company administrator must validate that you work for that company before you can use the system.
